## Description

Interpretation Dictionary Swedish-Arabic is a dictionary for translation between Swedish and Arabic, the dictionary contains around 6500 words translated from Swedish to Arabic. The dictionary primarily deals with terms within the domains of the judicial, healthcare and workplace sector.

The dataset contains two .json files. The file "arabiska.json" contains a list of all Swedish words and their respective translations in Arabic. The file "arabiska\_med\_basordlista.json" contains a copy of the Swedish translation dictionary with Arabic translations under the attribute "oversattning". Note that both files can contain multiple Arabic translations for a single Swedish word.

The dataset is 3.2mb and contains 6656 Arabic translations in total.
