Lennart Brantgärde - University of Gothenburg, Swedish Social Science Data Service

Research principal

[University of Gothenburg](#) - Swedish Social Science Data Service

Description

This data collection is divided into two subset. For each municipality and town there is information about total population within the principal occupational groups agriculture and subsidiary industry, industry and craft, transport, storage, communication and commerce, public service and independent professions, domestic work, and unspecified occupation and also about total number of professionally employed. For towns with more than 10 000 inhabitants there is a subset including information about total population and number of professionally employed within the principal occupational groups and also within subgroups of these principal groups.
