Description

This survey forms part of the research program 'Dagspresskollegiet'. The target group of this survey was the inhabitants of four municipalities in Södermanland: Eskilstuna, Flen, Strängnäs and Kungsör. Most of the questions are replications of questions asked in previous readership studies, i.e. questions concerning reading habits, subscriptions of papers, reading interests and background variables such as gender, age, education and party preference. There were also a number of questions not asked in previous surveys. In this survey the respondents were asked about their opinion on the occurrence of incorrect or misleading information in various news media; if the news cover should be influenced by the editorial political standpoint; and the importance of a variety of different goals of society in the next ten years.

Data contains personal data

No

Language

[Swedish](#)

Unit of analysis

[Individual](#)

Population

Individuals aged 15-75 years and residing in Eskilstuna, Flen, Strängnäs and Kungsör municipalities

Time Method

[Longitudinal: Trend/Repeated cross-section](#)

Sampling procedure

[Probability: Simple random](#)

Time period(s) investigated

1985-01-01 - 1985-01-01

Variables

326

Number of individuals/objects

1820
