Description

Security measurement in Skaraborg 1998 is a student essay (c level) in social psychology conducted at Skövde University. The data material has been made available with the approval of supervisor Bo Eriksson, University of Gothenburg.

The survey has been conducted in cooperation with the County Police Office in Skaraborg and Skaraborg County Council, and aims to serve as a basis for the police in its work to reduce crime and increase security in the project "Allas vårt ansvar". Data content includes information on perceived safety in the municipality, measures to increase personal safety, perceived crime and perceived security for the police.

Purpose:

The purpose of the study is to provide a picture of people's level of safety and an idea of what affects the level of safety and to serve as a basis for the police's practical work.
