## Description

The study aims at analysing how Swedish news media has reported on research misconduct during the years of 2002-2013 and whether this kind of news reports has increased over time. This has been done by conducting a quantitative content analysis of all articles/reports on research misconduct in some of the largest Swedish news media: Dagens Nyheter, Svenska Dagbladet, Göteborgs-Posten, Sydsvenskan, Aftonbladet, Expressen, GT, Kvällsposten, Metro, and Sveriges Television's news programme Rapport.

Purpose:

The study aims at analysing how Swedish news media has reported on research misconduct during the years of 2002-2013 and whether this kind of news reports has increased over time.

## Language

[Swedish](#)

## Unit of analysis

[Media unit: Text](#)

## Population

Swedish news media

## Time Method

[Longitudinal](#)

## Sampling procedure

[Total universe/Complete enumeration](#)

## Time period(s) investigated

2002-01-01 - 2013-12-31

## Variables

38

## Number of individuals/objects

359

## Data format / data structure

[Numeric](#)

## Data collection 1

- Mode of collection: Content coding
- Time period(s) for data collection: 2013-10-01 – 2014-01-15
- Source of the data: Communications: Public, Communications

## Geographic spread

Geographic location: [Sweden](#)

## Responsible department/unit

JMG

## Funding

- Funding agency: Swedish Research Council
