## Description

The information in the abstract is translated from the archaeological report: The Swedish National Heritage Board's contract archaeology division, UV Öst, has surveyed three areas (object 1-3) within the properties Lösings häradsallmänning, Kolmården 1:6 and Strömsfors 1:1 in Krokek parish, Norrköping municipality. The municipality is planning to build a recycling centre in the Krokek area. Due to this, UV Öst performed a stage 1 survey within objects 1 - 2 and a stage 2 survey within object 3. Archaeological remains consisting of Stone Age settlements were discovered just north-east of object 1 and within part of object 2. No remains were found within object 3.

Purpose:

The information in the purpose is translated from the archaeological report: The aim of the surveys was to investigate whether the development area contained any archaeological remains protected by law, or any other cultural remnants, and, if so, if the remains were going to be affected by the development works.

The ZIP file consist of GIS files and an Access database with information about the excavations, findings and other metadata about the archaeological survey.
