Description

During summer and autumn 1989, UV Öst investigated an area with settlement remains in the area of Högby tomt.

The remains of five houses, an enclosure, a pit system and several hearths could be distinguished. The ages of the features range from Roman Iron Age to the Viking period.

The ZIP-file contains four shapefiles with information on trenches, ancient monuments, archaeological finds and other data from the archaeological survey, as well as four maps of the investigation area.

Data collection 1

- Mode of collection: Field observation
- Description of the mode of collection: Anloga ritningar och planer har digitaliserats och georefererats i ArcMap 10.
- Time period(s) for data collection: 1989 - 1989

Data collection 2

- Mode of collection: Compilation/Synthesis
- Description of the mode of collection: Anloga ritningar och planer har digitaliserats och georefererats i ArcMap 10.
- Time period(s) for data collection: 2014 - 2014
- Data collector: Uppsala university, Department of Archaeology and Ancient History
