

Do not let valuable research data perish on a hard drive!

If you deposit quantitative or qualitative data at SND, you ensure that they will be preserved.

Your data can easily be found, used and cited by researchers worldwide.

The Swedish government research bill (2016/17:50), the Swedish Research Council and EU framework program Horizon 2020 point out the value of preserving and making research data available.

## Your own perspective on other researchers' data

Are you going to perform a secondary analysis of famous data or conduct a follow-up study?

Do you wish to browse among exciting data sets to combine them in cutting-edge, interdisciplinary projects?

Via SND you can get access to both Swedish and international research data.

*Welcome!*
