The Sweden Count 2000

Sverigeräkningen 2000

Overview

Identification SND0949-001

Abstract

The data file belonging to this study contains information about participation in services and worships at approximately 5,900 parishes, corps and religious groups across Sweden during the weekend of 24 - 26 September 1999. The survey was sent to roughly 6,500 parishes, corps and groups and a response rate of around 90% was thus reached. Well over half a million participations were registered during the weekend, in communities spanning over Christianity, Judaism, Islam, Bahá'í, Hinduism, Sikhism, Buddhism and "new movements" including New Age movements, Neopaganism, Neo-Hindu movements, the Church of Scientology etc. Four pieces of information were gathered: 1) day and time of the religious activity, 2) type of religious activity, 3) number of participants, 4) whether the activity was ecumenical or not.
